

TANKER MANAGEMENT & SELF ASSESSMENT (TMSA) – SEMINAR
The One Seminar in 2009 You Cannot Afford to Miss

Dear Colleague:

We are pleased to announce that Hudson Marine Management Services and HudsonSystems will be conducting a Senior-Management level Tanker Management Self Assessment (TMSA) Seminar in Hamburg on Wednesday, September 30th, 2009. The seminar is offered free of charge and will be held at the Radisson BLU (formerly Radisson SAS). <http://www.radissonblu.com/hotel-hamburg>

If there is one seminar you or one of your senior executives cannot afford to miss in 2009, it is this TMSA seminar. It is designed to give you an understanding of TMSA, how TMSA fits into the Vetting, Quality and Risk Management processes, what it all means for your shipping operation and how this will facilitate your success in obtaining charters.

Ian Hunter will be conducting the one-day seminar. He recently joined Hudson as a senior executive and is considered internationally as the “father” of TMSA. Ian’s credentials are impeccable: an extensive Quality Assessment background with ExxonMobil, responsible for ExxonMobil’s worldwide 3rd party vessel vetting system; he is a former member of the General Policy Committee of OCIMF (Oil Companies International Marine Forum); as well as Chairman of both the Marine Issues Committee of the UK Chamber of Shipping and the Marine Committee in the International Chamber of Shipping.

Mr. Hunter will be joined by Tim Knowles. Tim, who has joined Hudson as a senior manager, is considered one of the top vetting advisors and has also worked extensively in Quality Assurance and third party tanker screening. Recent roles include: Chairman of the Oil Companies International Marine Forum (OCIMF) committee developing the international Ship Inspection (SIRE) program; and chairing the Inter Industry Group tasked with making recommendations to the Industry and International Maritime Organisation (IMO).

The seminar will include an online demonstration of HudsonSystem’s TMSA IT solution, TMSALogix®™, which is proving itself as the most relevant and effective senior management SMS and support system available. We will also discuss and present the relevance of this SMS system for Non-Tankers. The seminar will conclude with a Q & A session at which time our colleagues are welcomed and encouraged to ask the difficult questions!

Upon the conclusion of the seminar a cocktail reception will be held, allowing you to network with your peers.

We look forward to receiving your registration to this seminar. For more information and to reserve your attendance, please contact Alexander Christensen, Atle Valland, or Walter Toenshoff:

alex.christensen@hudsonmarine.com or atle.valland@hudsonsystems.com or walter.toenshoff@hudsonmarine.com

Date: Wednesday, September 30th, 2009
Time: From 1200hrs to 1700hrs – cocktail hours 1700hrs to 1900hrs
Where: Radisson Blu Hotel, Marseiller Strasse, 2, D-20355 Hamburg

WELCOME
